The only instructional technology text organized around the new ISTE standards, TECHNOLOGY INTEGRATION WITH MEANINGFUL CLASSROOM USE: A STANDARDS-BASED APPROACH equips future teachers with the knowledge, skills, and confidence to become "self-directed learners" who can effectively integrate technology into their instruction today--and as technology inevitably changes. Extremely practical and forward thinking, the text focuses on the enduring aspects of educational technology like computers as systems and technology integration as a systematic process. It provides teachers with a solid understanding of how to integrate technology resources into their everyday teaching practices as well as prepares them to successfully navigate the constantly changing environment of technology.
