**Contracts: Cases and Doctrines (Aspen Casebook Series), 5th Edition** Randy E. Barnett

**Contracts: Cases and Doctrines'** back-to-basics, case-based approach gives students ample doctrinal material as they sift through and analyze facts for prevailing themes and theory. Cases are lightly edited, or presented whole, to give first-year students the opportunity to develop case-analysis skills. The popular flexible organization begins with Remedies, but chapters can be taught in any order. A mixture of classic and contemporary cases adds interest and affords teaching alternatives. Each chapter begins with a brief textual introduction, and Study Guide questions before each case help focus student attention on salient issues. Background information provides context for understanding cases, and abundant citations reference popular and respected sources. Relevant provisions of the Uniform Commercial Code and the Restatement (Second) of Contracts are thoughtfully presented.

The revised **Fifth Edition** has been updated throughout with new cases added to build upon the strengths of the book.
