Legumes in the Omic Era

Legumes in the Omic Era

Legumes in the Omic Era provides a timely review of recent advances in legume genomics research and application. In this post-genomic era enormous amount of biological information is available which could be of huge potential use for crop improvement applications. This aspect of genomics assisted plant breeding is focused throughout the book for all the important grain legume crops. Role of functional genomics and importance of bioinformatics tools in present day genomics and molecular breeding research is also discussed in detail. Use of molecular tools for nutritional fortification of grain legume is briefly presented. A chapter also been contributed on fungal disease resistance to elucidate potential application of genomic tools in molecular breeding of grain legume species. The book contains fifteen chapters contributed by 50 scientists from different countries who are actively involved in analyzing and improving particular legume genome. This book will serve as reference resource to legumes researchers for use of genome information in improvement of major legume crops.

Dr Sanjeev Gupta is Principal Scientist/Project Coordinator-All India Coordinated Research Project on Vigna Crops at Indian Institute of Pulses Research (IIPR), Kanpur. He has more than two decades of research experience in grain legume breeding and developed a number of high yielding cultivars in grain legumes. He is authored numerous research papers published in peer-reviewed journals and edited several books in plant breeding aspects. He was the Organizing Secretary of the International Grain Legume Conference, 2009 held in the Indian Institute of Pulses Research, Kanpur, India. He has travelled across the continents to present his research several times. He is recipient of several awards for his research and literary contributions Dr. Nagasamy Nadarajan is the Director of the Indian Institute of Pulses Research (IIPR), Kanpur. He has more than three decades of teaching and research experience and developed more than fifteen legume and cereal cultivars. He has to his credits more than 200 peer-reviewed research publications. He has guided several graduate students for Masters and Doctoral degrees in food legume breeding and genetics research. He has authored a book in biometrics which is one of the most popular books among the agriculture graduate students in India. He is the recipient of three international and six national awards and honours for his outstanding contributions Mr. Debjyoti Sen Gupta is the ICAR International Fellow and Ph.D. candidate at North Dakota State University (NDSU), Fargo, USA. Recently, he visited Department of Crop and Soil Sciences, Washington State University, Pullman, USA for high throughput genotyping work. Before joining at NDSU he was serving as the Scientist in the Indian Institute of Pulses Research (IIPR). He has authored several research articles, review articles and book chapters in the peer-reviewed journals and books from reputed publishers like Springer, CABI etc. He is recipient of several fellowships like CSIR-JRF, New Delhi; ICAR-JRF, New Delhi throughout his graduate study programs.

From reader reviews:

Mildred Ortiz:

The book Legumes in the Omic Era can give more knowledge and information about everything you want. So just why must we leave a very important thing like a book Legumes in the Omic Era? Some of you have a different opinion about publication. But one aim in which book can give many details for us. It is absolutely correct. Right now, try to closer with the book. Knowledge or facts that you take for that, you are able to give for each other; you are able to share all of these. Book Legumes in the Omic Era has simple shape however you know: it has great and big function for you. You can appear the enormous world by start and read a book. So it is very wonderful.

Teresa Hennessey:

Spent a free time for you to be fun activity to complete! A lot of people spent their sparetime with their family, or their friends. Usually they performing activity like watching television, gonna beach, or picnic inside park. They actually doing same thing every week. Do you feel it? Do you need to something different to fill your free time/ holiday? May be reading a book could be option to fill your free time/ holiday. The first thing that you will ask may be what kinds of book that you should read. If you want to test look for book, may be the book untitled Legumes in the Omic Era can be very good book to read. May be it can be best activity to you.

Stephen Thrush:

It is possible to spend your free time you just read this book this book. This Legumes in the Omic Era is simple to bring you can read it in the recreation area, in the beach, train and soon. If you did not possess much space to bring often the printed book, you can buy the e-book. It is make you easier to read it. You can save typically the book in your smart phone. So there are a lot of benefits that you will get when one buys this book.

Scott Marin:

Do you like reading a e-book? Confuse to looking for your chosen book? Or your book ended up being rare? Why so many problem for the book? But virtually any people feel that they enjoy for reading. Some people likes reading through, not only science book but novel and Legumes in the Omic Era or even others sources were given expertise for you. After you know how the good a book, you feel would like to read more and more. Science book was created for teacher or maybe students especially. Those guides are helping them to bring their knowledge. In different case, beside science book, any other book likes Legumes in the Omic Era to make your spare time far more colorful. Many types of book like this one.
