Growing up in a town like Sycamore Falls could make a girl feel as though the universe was a pretty small and boring place indeed, or at least that's what it seems like to Laura Hayman. Laura is twenty-two and stuck in a rut, trapped in a dead end job with no money, no life, no future.

But then Laura meets Belle, a beguiling blonde with a mysterious past who awakens feelings inside her that she's never experienced before. As she struggles with these **new desires and feverish longings**, Laura begins to wonder what Belle's strange secret is.

Because Belle is not at all what she seems, and Laura's universe is about to get a whole lot bigger as the sensual blonde takes her on an intergalactic journey that is fraught with deadly danger and bursting with **lesbian passion and sapphic lust!** She's about to find out that the sun isn't the only **celestial body** in the solar system!
