Adaline was always popular in school, but that didn't help much. Despite being voted prom queen and having everything she could have wanted from a home town, she decided to travel across the country for college.

After all, her small clique of girlfriends are still only a phone call away.

Everything in Adaline's life is perfect and she can't wait for the next chapter to begin, but when she gets to college and discovers that her private dorm room is in fact, a shared one, she's furious.

She realizes that her only hope of getting through the next year is if she plays nice with whoever walks through that door as her future roommate.

Her plan doesn't get off to a great start when this new roommate, who is strangely hot, seems to have animosity towards her. She hasn't done anything wrong.. or so she thinks.

What has Adaline done to this girl, and will she be able to show her new roommate all popular girls are not the same?
