Pro DNS and BIND

Ron Aitchison

Pro DNS and BIND Ron Aitchison

Pro DNS and BIND guides you through the challenging array of features surrounding DNS, with a special focus on BIND, the world's most popular DNS implementation. This book unravels the mysteries of DNS, offering insight into origins, evolution, and key concepts like domain names and zone files. This book focuses on running DNS systems based on BIND 9.3.0 the first stable release that includes support for the latest DNSSEC (DNSSEC.bis) standards and a major functional upgrade from previous BIND 9 releases.

If you administer a DNS system or are thinking about running one, or if you need to upgrade to support IPv6 DNS, need to secure a DNS for zone transfer, dynamic update, or other reasons, or if you need to implement DNSSEC, or simply want to understand the DNS system, then this book provides you with a single point of reference. *Pro DNS and BIND* starts with simple concepts, then moves on to full security-aware DNSSEC configurations. Various features, parameters, and resource records are described and, in the majority of cases, illustrated with one or more examples.

The book contains a complete reference to zone files, Resource Records, and BINDs configuration file parameters. You can treat the book as as a simple paint-by-numbers guide to everything from a simple caching DNS, to the most complex secure DNS (DNSSEC) implementation. Background information is still included for when you need to know what to do and why you have to do it, and so that you can modify processes to meet your unique needs.

Table of Contents

1. An Introduction to DNS
2. Zone Files and Resource Records
3. DNS Operations
4. DNS Types
5. DNS and IPv6
6. Installing BIND
7. BIND Type Samples
8. Common DNS Tasks
9. DNS Diagnostics and Tools
10. DNS Secure Configurations
11. DNSSEC
12. BIND Configuration Reference
13. Zone File Reference
14. BIND APIs and Resolver Libraries
15. DNS Messages and Records

From reader reviews:

Harriett Costello:

What do you concentrate on book? It is just for students as they are still students or the item for all people in the world, what the best subject for that? Just you can be answered for that issue above. Every person has different personality and hobby for each and every other. Don't to be forced someone or something that they don't need do that. You must know how great as well as important the book Pro DNS and BIND. All type of book is it possible to see on many resources. You can look for the internet sources or other social media.

Tanya Nolan:

Precisely why? Because this Pro DNS and BIND is an unordinary book that the inside of the book waiting for you to snap the item but latter it will shock you with the secret it inside. Reading this book alongside it was fantastic author who else write the book in such wonderful way makes the content within easier to understand, entertaining means but still convey the meaning totally. So , it is good for you for not hesitating having this any more or you going to regret it. This amazing book will give you a lot of advantages than the other book possess such as help improving your talent and your critical thinking means. So , still want to postpone having that book? If I had been you I will go to the book store hurriedly.

William Lebel:

Are you kind of active person, only have 10 or perhaps 15 minute in your time to upgrading your mind talent or thinking skill perhaps analytical thinking? Then you have problem with the book as compared to can satisfy your limited time to read it because all this time you only find guide that need more time to be read. Pro DNS and BIND can be your answer as it can be read by you who have those short time problems.

Thomas Rice:

Reading a book being new life style in this yr; every people loves to study a book. When you read a book you can get a lot of benefit. When you read guides, you can improve your knowledge, since book has a lot of information in it. The information that you will get depend on what forms of book that you have read. If you would like get information about your analysis, you can read education books, but if you act like you want to entertain yourself read a fiction books, this sort of us novel, comics, in addition to soon. The Pro DNS and BIND provide you with a new experience in reading a book.
