An eye for an eye. Is that why Justice is blindfolded? Vigilantes. Volunteers claiming to serve justice. They are hasty to judge and quick to act. Sloppy. Misguided. No wonder the law pursues them as much as the very criminals they claim to rid the world of. The results of their efforts speak for themselves: You Get What You Pay For. Blindfolded...but not stupid. Now an organization of computer Hackers and Programmers armed with an omniscient behavior simulation platform rises to the occasion. Drawing information and financial resources from the world wide web, The Model determines the present to project the future. To arrange the fates of the villains who escape justice by pairing them with the victims who yearn for it in a final dance of life and death. Not only to right the wrongs, but to reckon them. Effectively. Permanently. Revenge isn't the only dish served cold. So are just desserts.
