## **Modelling Command and Control: Event Analysis of Systemic Teamwork (Human Factors in Defence)** Neville A. Stanton, Chris Baber

Since its inception, just after the Second World War, Human Factors research has paid special attention to the issues surrounding human control of systems. Command and control environments continue to represent a challenging domain for human factors research. Modelling Command and Control takes a broad view of command and control research, to include C2 (command and control), C3 (command, control and communication), and C4 (command, control, communication and computers) as well as human supervisory control paradigms. The book presents case studies in diverse military applications (for example, land, sea and air) of command and control. The book explores the differences and similarities in the land, sea and air domains; the theoretical and methodological developments, approaches to system and interface design, and the workload and situation awareness issues involved. It places the role of humans as central and distinct from other aspects of the system. Using extensive case study material, Modelling Command and Control demonstrates how the social and technical domains interact, and why each require equal treatment and importance in the future.

### **From reader reviews:**

#### **Brian Pena:**

The knowledge that you get from Modelling Command and Control: Event Analysis of Systemic Teamwork (Human Factors in Defence) will be the more deep you searching the information that hide inside the words the more you get thinking about reading it. It doesn't mean that this book is hard to be aware of but Modelling Command and Control: Event Analysis of Systemic Teamwork (Human Factors in Defence) giving you excitement feeling of reading. The author conveys their point in selected way that can be understood by simply anyone who read that because the author of this book is well-known enough. This kind of book also makes your personal vocabulary increase well. Therefore it is easy to understand then can go along, both in printed or e-book style are available. We propose you for having this Modelling Command and Control: Event Analysis of Systemic Teamwork (Human Factors in Defence) instantly.

#### **Alan Durham:**

This Modelling Command and Control: Event Analysis of Systemic Teamwork (Human Factors in Defence) are usually reliable for you who want to certainly be a successful person, why. The explanation of this Modelling Command and Control: Event Analysis of Systemic Teamwork (Human Factors in Defence) can be one of several great books you must have is usually giving you more than just simple looking at food but feed an individual with information that maybe will shock your earlier knowledge. This book is handy, you can bring it just about everywhere and whenever your conditions at e-book and printed versions. Beside that this Modelling Command and Control: Event Analysis of Systemic Teamwork (Human Factors in Defence) forcing you to have an enormous of experience for instance rich vocabulary, giving you trial of critical thinking that we realize it useful in your day exercise. So , let's have it and luxuriate in reading.

#### **Barbara Wheat:**

People live in this new morning of lifestyle always aim to and must have the spare time or they will get wide range of stress from both way of life and work. So , if we ask do people have time, we will say absolutely sure. People is human not really a huge robot. Then we inquire again, what kind of activity do you possess when the spare time coming to you of course your answer will probably unlimited right. Then ever try this one, reading textbooks. It can be your alternative throughout spending your spare time, typically the book you have read will be Modelling Command and Control: Event Analysis of Systemic Teamwork (Human Factors in Defence).

#### **Phillip Elliott:**

Modelling Command and Control: Event Analysis of Systemic Teamwork (Human Factors in Defence) can be one of your starter books that are good idea. Many of us recommend that straight away because this guide has good vocabulary that will increase your knowledge in language, easy to understand, bit entertaining but still delivering the information. The article writer giving his/her effort to get every word into satisfaction

arrangement in writing Modelling Command and Control: Event Analysis of Systemic Teamwork (Human Factors in Defence) but doesn't forget the main position, giving the reader the hottest along with based confirm resource facts that maybe you can be among it. This great information may drawn you into brand-new stage of crucial contemplating.
