Small Animal Oncology: An Introduction, 1e Susan M. North BSc(Hons) PhD DVM DipACVIM(Med Onc) DipECVIM-CA(Int Med and Med Onc) MRCVS, Tania Ann Banks BVsc FACVSc(Small Animal Surgery) MRCVS

A highly practical guide suitable for in-clinic reference, Small Animal Oncology has been designed for maximum ease of use and accessibility of information. Whilst giving clear and up-to-date briefing for the busy practitioner, it also is a valuable resource to the student with a special interest in oncology. This Introduction gives an overview of cancer biology and explains the principles of available therapies. There is up to date discussion on new and developing techniques and treatments, and guidance on when these are indicated. The book covers all common, most less common and some rare aspects of small animal oncology.

- accompanying Evolve website includes over 20 clinical cases to try your knowledge
- all-round practical, useful, every day essential guide to small animal oncology
- schematic approach gives quick access to information when you need it
- explains biology and the basic principles as well as indicating treatment options
