La denominada crítica comunitarista ha puesto en cuestión los presupuestos y las implicaciones del discurso liberal para proveer del marco explicativo adecuado a cómo realmente se orientan moralmente los seres humanos y cómo funciona nuestra moralidad. Posiblemente no haya conseguido un éxito definitivo en esta tarea. La mayor relevancia de su aportación es la radiografía detallada de la normatividad liberal que permite analizarla desde una nueva perspectiva, que pone el énfasis en lo colectivo, lo que ha abierto la vía para la formulación de una revisión del republicanismo cívico o la aparición de autores liberales que combinan su adhesión al valor de la autonomía individual con la afirmación de la necesidad de proteger un determinado contexto cultural, y que forman el denominado culturalismo liberal<sup>1</sup>. Lo relevante de la polémica liberal comunitarista es que varios autores desde presupuestos, metodologías, ideologías y tradiciones diversas han coincidido en criticar el excesivo individualismo y procedimentalismo del discurso liberal y abogan, insisto desde diferentes perspectivas, por una revisión en positivo de los valores de la comunidad. En este sentido, algunas reivindicaciones de las minorías culturales se ven mejor reflejadas desde el contexto explicativo de las portaciones de algunas posiciones comunitaristas que desde el discurso liberal.
