Generation automation is upon us. The craving to own the latest and greatest technology in the name of convenience has created a world where man and machine live alongside one another in an unsteady peace. Humans still rule for now. However, an underground movement has begun that will change everything.

For every arising enemy against humanity, a countermeasure is born....

Alexia is one of the few humans left who'd rather not have an android hanging over her shoulder all day. Unfortunately, when her job lands her on a list of people targeted by terrorists, she's assigned a Machine Industry Leading Edge Sentinel, or "Miles," for protection. Per Miles programming, he shouldn't be able to override Alexia's commands. However, he defies her at every turn. The lines between reality and fantasy blur as Alexia's attraction for the mysterious android grows. Unfortunately, when she goes on a mission to seek the truth, what she learns might get her killed.
