Book Two is **Sorting the Dream**. An adventure cannot happen without participants, characters, and a goal in mind. Slowly gifts begin to come her way that she has to utilize to keep her new venture afloat. Does one ship make a fleet? How many are needed to run one ship, how many for a fleet? Is the money available? Where and how will they find a place to have their ships built? Missions have to be done as needs arise from the Galaxy Chair Marithar Denaba. Some are accused of crimes due to associating with the wrong people. Others step up and ask to join only after explaining who they are and how they come to be looking for employment by that particular group. Old friends, new friends, new allies, come from unsuspected places. At the same time talents are developed and put to work that will make the new venture a more solid enterprise and one that could aid the residents of many worlds.
