Paediatric Surgical Pathology: An Illustrated Handbook of the Paediatric Biopsy Ph.D. Gray, Elizabeth S. Gray

A heavily illustrated benchbook covering the histopathology of conditions presenting solely or particularly in the paediatric and adolescent age groups. The focus is on lesions presenting to the pathologist in surgical pathology, rather than autopsy. This book covers the important area of the histopathological appearance of conditions which the paediatric pathologist (or general pathologist handling paediatric cases) will need to know about. Conditions covered in detail include: small cell tumours of childhood; areas of special diagnostic difficulty in children; and techniques specific to handling certain paediatric biopsies (eg paediatric solid tumours). This book brings together in a single well-illustrated volume a wide range of up-to-date information for anyone who encounters paediatric histopathological specimens - and will help them to make accurate diagnoses. In addition it will be of interest to the paediatrician or paediatric surgeon, giving them informed knowledge of the pathology of various aspects of child health.
