From Vectors to Tensors (Universitext)

Enrique Castillo, Juan Ramon Ruiz-Tolosa

From Vectors to Tensors (Universitext) Enrique Castillo, Juan Ramon Ruiz-Tolosa

This textbook deals with tensors that are treated as vectors. Coverage details such new tensor concepts as the rotation of tensors, the transposer tensor, the eigentensors, and the permutation tensor structure. The book covers an existing gap between the classic theory of tensors and the possibility of solving tensor problems with a computer. A complementary computer package, written in Mathematica, is available through the Internet.
