Pieces of Three Kim Carmichael

Some go through their whole lives looking for their other half...some are pieces of three.

Of all the different shifter species in the Okeanos Archipelago, none is more feared than the Lykans, the wolf shifters, diseased, destructive thieves who had been ostracized decades ago. In fact, history shows that no human has ever survived mating with a Lykan.

As liaison between the humans and the shifters for Anthros Island, all Alyssa Wilkinson wants is to become an ambassador and explore the archipelago to study the species she'd been fascinated with her whole life. She only needs to gain her confidence and overcome her fear of water.

With disease ravaging their females, Lykan shifters, Julian Chalis, and Porter Galen have come to Anthros searching for a cure. Captured, their only hope is found in a tiny human with large principles.

When the three of them are shipwrecked on an isolated island after a storm, Julian and Porter find themselves in the middle of the Lykan lunar mating cycle. Both wanting Alyssa, they give into their desires and choose to share her, never realizing they could be risking her life.

However, when Alyssa falls ill, Julian and Porter must return to Anthros, the island of the enemy, to save the one they love.

Pieces of Three is a paranormal stand-alone ménage romance (MFM).
