- Thoroughly revises and updates a popular text for community college-level LIS or LTA programs that can also be used in MLIS graduate-level curricula and for four-year bachelor's degree programs in library studies and information studies
- Provides a succinct introduction to the library industry and a practical overview of the field from seasoned practitioners
- Brings together learnings from academic, public, special, and school libraries as well as archives and historical agencies, presenting material with both depth and breadth
- Is applicable as an introduction for library funding agencies and public library trustees or boards
