Political Dawn: The Declaration of Reformation An Anonymous American Author

You are not reading this by happenstance.

The United States government no longer represents the American people. Money has become the dictator of the democratic process. Congress is divided and arguably entirely dysfunctional.

Lawmakers conspire with lobbyists and special interests to create legislation and regulation in their favor, mismanage the public purse, and imperil us and our posterity to deficits and debt in perpetuity. Injustices proliferate; our rights are violated daily.

In short, the Republic is in decline. Democracy is faltering, privacy is perishing, and the Constitution is in extremis. So what can we do? Where do we begin? Welcome to Political Dawn.

Written in broad prose and blunt, unapologetic language that favors no political party, persuasion, or power, other than the powers possessed by the American people and the states, *Political Dawn: The Declaration of Reformation* catalogues the government's long-standing political problems—which are legion; asserts our fundamental right to reform our own government; and declares the constitutional method and means by which we, the American people and the states, can directly exercise that right, resolve the resolvable defects of government, and successfully achieve the declared goal.

Distinct from other works narrower in scope and that speak to those ideologically aligned with a particular dimension of the political spectrum, this book is for all Americans. So who should read this book? *You* should read this book, especially if any of the following apply to you:

1. You are an American citizen, or you are affected in any way by the United States government.
2. You are interested in politics, bothered by politics, or dissatisfied with politics in the United States.
3. You would like to learn evidenced-based answers to the following questions:
 - In what ways does the United States government violate the Constitution and our rights and liberties?
 - Are the typical means by which we may attempt to influence government, such as by way of elections, adequate to achieve the type of reform that is needed?
 - What other peaceful, political recourse do we (the American people) have?

If you do not care about the answers to the above questions or about politics in the United States, if you think there is nothing we can lawfully do to resolve our political problems or that the traditional means of reform are sufficient for the task, or if you believe there is nothing wrong with the United States government—then you *definitely* should read this book.

Christine Cote:

As a university student exactly feel bored to reading. If their teacher requested them to go to the library or even make summary for some publication, they are complained. Just tiny students that has reading's soul or real their leisure activity. They just do what the trainer want, like asked to go to the library. They go to presently there but nothing reading seriously. Any students feel that looking at is not important, boring along with can't see colorful photographs on there. Yeah, it is to be complicated. Book is very important to suit your needs. As we know that on this age, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. So , this Political Dawn: The Declaration of Reformation can make you truly feel more interested to read.
