When your whole world is virtual, what is reality?

Everyone in the universe of Edda is made of pixels—except for Penelope. While her body is kept alive in a hospital bed, her avatar runs free, able to go anywhere and do anything, including create deadly weapons for Edda's ruler, her guardian Lord Scanthax. When Scanthax decides to invade another virtual world, Erik/Cindella from *Epic* and Ghost from *Saga* become part of the story—and soon the virtual universes are alive with fighting, alight with bombs, and brought together by three teenagers who want peace and understanding.

With its blend of action, technology, subversion, and politics, Conor Kostick's Epic Trilogy is the next best thing to gaming.
