Designing Experimental Research in Archaeology: Examining Technology through Production and Use Jeffrey R. Ferguson

Designing Experimental Research in Archaeology is a guide for the design of archaeological experiments for both students and scholars. Experimental archaeology provides a unique opportunity to corroborate conclusions with multiple trials of repeatable experiments and can provide data otherwise unavailable to archaeologists without damaging sites, remains, or artifacts.

Each chapter addresses a particular classification of material culture—ceramics, stone tools, perishable materials, composite hunting technology, butchering practices and bone tools, and experimental zooarchaeology—detailing issues that must be considered in the development of experimental archaeology projects and discussing potential pitfalls. The experiments follow coherent and consistent research designs and procedures and are placed in a theoretical context, and contributors outline methods that will serve as a guide in future experiments. This degree of standardization is uncommon in traditional archaeological research but is essential to experimental archaeology.

The field has long been in need of a guide that focuses on methodology and design. This book fills that need not only for undergraduate and graduate students but for any archaeologist looking to begin an experimental research project.

From reader reviews:

Mary Lee:

This Designing Experimental Research in Archaeology: Examining Technology through Production and Use book is just not ordinary book, you have it then the world is in your hands. The benefit you receive by reading this book will be information inside this book incredible fresh, you will get information which is getting deeper you actually read a lot of information you will get. That Designing Experimental Research in Archaeology: Examining Technology through Production and Use without we comprehend teach the one who reading through it become critical in thinking and analyzing. Don't become worry Designing Experimental Research in Archaeology: Examining Technology through Production and Use can bring whenever you are and not make your carrier space or bookshelves' come to be full because you can have it with your lovely laptop even mobile phone. This Designing Experimental Research in Archaeology: Examining Technology through Production and Use having very good arrangement in word along with layout, so you will not sense uninterested in reading.

Terry Carr:

This Designing Experimental Research in Archaeology: Examining Technology through Production and Use is great e-book for you because the content that is certainly full of information for you who else always deal with world and have to make decision every minute. This book reveal it info accurately using great organize word or we can state no rambling sentences included. So if you are read it hurriedly you can have whole information in it. Doesn't mean it only provides straight forward sentences but hard core information with attractive delivering sentences. Having Designing Experimental Research in Archaeology: Examining Technology through Production and Use in your hand like obtaining the world in your arm, information in it is not ridiculous 1. We can say that no book that offer you world with ten or fifteen tiny right but this publication already do that. So , it is good reading book. Heya Mr. and Mrs. busy do you still doubt which?

Gregory Sims:

Many people spending their period by playing outside having friends, fun activity with family or just watching TV all day every day. You can have new activity to pay your whole day by reading through a book. Ugh, you think reading a book will surely hard because you have to bring the book everywhere? It all right you can have the e-book, taking everywhere you want in your Cell phone. Like Designing Experimental Research in Archaeology: Examining Technology through Production and Use which is having the e-book version. So , why not try out this book? Let's notice.

Tammara Dejesus:

On this era which is the greater person or who has ability in doing something more are more valuable than other. Do you want to become among it? It is just simple approach to have that. What you have to do is just spending your time little but quite enough to enjoy a look at some books. On the list of books in the top list

in your reading list is *Designing Experimental Research in Archaeology: Examining Technology through Production and Use*. This book and that is qualified as *The Hungry Hillside* can get you closer in turning into precious person. By looking up and review this e-book you can get many advantages.
