Study Guide for Pharmacology: A Nursing Approach, 6e Linda E. McCuiston PhD RN ANP CNS, Joyce LeFever Kee MS RN, Evelyn R. Hayes PhD MPH FNP-BC

This substantial student study guide contains a variety of exercises specifically designed to reinforce content discussed in the text. Chapter worksheets feature more than 1,800 study questions, 160 drug calculation and dosage problems, and case-based critical thinking exercises. Like the core text, there is a strong nursing focus as well as comprehensive coverage of drug calculations, including numerous sample drug labels. The same author team that writes the text also prepares the study guide, which ensures consistency between the book and study guide. The revision also features additional NCLEX-format review questions, with an increased emphasis on alternate format questions.
